

# DoITT QGIS Training

Presented by [Eric Brelsford \(http://ebrelsford.github.io/portfolio\)](http://ebrelsford.github.io/portfolio)

## Day 1

### Morning (9am to 1pm)

- Introductions (30 minutes)
- What is QGIS? (15 minutes)
  - History. Current state.
- Installing QGIS (15 minutes)
- What is open source software? (30 minutes)
  - History. Who uses it?
- Working with vector data (2 hours)
  - Opening vector data of various types
    - Shapefile
    - CSV
    - GeoJSON
  - Exporting vector data
  - Selecting vector data
  - Layers
  - Attribute table
  - Expressions
  - Projections
- Managing projects (30 minutes)

### Afternoon (2pm to 5pm)

- Styling vector data (1 hour)
  - Basic styles
  - Sharing styles between layers
  - Styling based on expressions
- Print composer (1 hour)
- Mapping density (1 hour)
  - Hexbins
  - Heatmaps

## Day 2

### Morning (9am to 1pm)

- Review and discuss questions from Day 1 (30 minutes)
- Geoprocessing (1 hour)
  - Clipping
  - Buffering
- Combining data (2 hours)
  - Attribute joins
  - Spatial joins
  - Select by location
  - Count by location
- Editing and creating vector data (30 minutes)

## **Afternoon (2pm to 5pm)**

- Georeferencing (30 minutes)
- Working with raster data (1.5 hours)
  - Opening
  - Exporting
  - Vectorizing
  - Field calculator
- 3D mapping with the qgis2threejs plugin (30 minutes)
- Resources moving forward (30 minutes)
  - Asking for help online
  - Book recommendations
  - Blog and social media recommendations
